

## Deep C Multi-Purpose Grapple Tool

The Deep C Multi-Purpose Grapple Tool is a highly versatile, hydraulically operated (e.g. Hot-Stab) lifting tool for seabed clearance and recovery of various objects. It is robustly designed for recovery of heavy objects.

### Feature

- Lifting capacity up to 30 tons for pipes Ø100 mm to Ø800 mm and up to 25 meters in length.
- Double-barrier safety feature, compliant with NORSOK R-002 standards.
- Counterbalance valves for secure grip and dual/single lifting modes.

# Technical Specification

**Length x Width x Height:** 8272mm x 1644mm x 2178 mm

**Weight in Air:** 4500 kgs

**Weight submerged:** 3800 kgs

**Capacity:** Up to 30 tons

**Pipe Diameter:** Ø100 mm to Ø800 mm

**Max Pipe Length:** 25 meters

**Min. Working Pressure:** 190 Bar

**Max. Working Pressure:** 250 Bar

**Recommended Flow:** 80 lpm

**Interface to ROV:** 4x - 3 meters ½" hoses with JIC8 female fittings
